HOME OF SITUATIONAL AWARENESS

INTRODUCES THE ALLIANT INTEGRATED FLIGHT DECK

The first large glass flight deck with integrated autopilot designed for the King Air market

**NOW INCLUDES
THE 90 SERIES!**

Virtually all new General Aviation aircraft are enjoying the safety and reliability benefits of all-glass flight decks.

With the Alliant King Air Program, Avidyne and S-TEC have joined forces to create a retrofit solution for your King Air 200 that adds all the benefits of today's integrated flight decks for much less than purchasing a new aircraft.

The Alliant King Air upgrade increases safety and adds years of additional utility to your aircraft. In addition, Alliant provides long term resale value for your aircraft.

SANDEL SA4550 4X4 EADI

The perfect update for aging electromechanical ADIs. Providing reliable, easy-to-read attitude information. Accepts input from virtually any gyro source to provide a clear, reliable depiction of the aircraft's attitude in pitch and roll.

SANDEL SN4500 4X4 EHSI

Incorporating advanced display technology with easy-to-use controls and smart I/O for fast installation, this affordable system brightens your panel with NAV, traffic and weather radar information that's readable from any angle.

SANDEL SG101 SG102 SG103

Sandel's new DG product line is built around the SG102 directional gyro, a compact instrument that serves as a drop-in replacement for the Bendix/King® KG 102. Available with a 5.37 x 7.79-in. mounting plate that perfectly fits the footprint of existing installations, the SG102 is a self-contained unit that provides accurate, reliable inertial sensor information.

WE HAVE THE PACKAGE TO SUIT YOU:
