

Complete Avionics – NIST/NATA/PTB Traceability

Dear Valued Customer,

Our Company takes quality and accuracy seriously when it comes to our calibration services.

All equipment used to calibrate Air Data Test Sets are traceable to the National Institute of Standards and Technology (NIST).

All equipment used to calibrate Avionics Radio Test Sets are traceable to the National Association of Testing Authorities (NATA), NIST or the Physikalisch-Technische Bundesanstalt (PTB) in Germany.

All equipment used to calibrate Digital Multimeters are traceable to NIST.

All equipment used to calibrate Hand Tools are traceable to NATA.

We take pride in ensuring that all calibrations are carried out in accordance with the manufacturer's specifications and meet the thorough requirements of AS ISO/IEC 17025:2018 General requirements for the competence of testing and calibration laboratories. This commitment to quality ensures that our equipment is always performing at its best and provides our customers with the most accurate results possible.

Thank you for choosing our services. If you have any further questions or concerns, please do not hesitate to contact us.

Sincerely,

Complete Avionics
